Mike,

I believe you are back this week. I hope you enjoyed fishing with your son in Alaska. Following up on what we discussed, our Roadmaster there is Daryl Braun and he can be reached at: 406-863-0253, email: Daryl.Braun@BNSF.com.

When you get settled, feel free to give me a call (I plan to be in the office the rest of this week), or simply contact Daryl directly. Do you have an ETA, because I'm sure he'll want to know that. Regardless, we'll want to engage Daryl to see what's needed.

Thanks,
Yueh

Yueh Chuang, P.E.

Hi Mike,

When you have a chance, give me a call. I want to make sure to coordinate as appropriate. I most likely will get you hooked up with another BNSF staff, but like to get a bit more information from you. I tried calling and realized I don't have a cell number for you, and the office is only open Mon-Thu. I should be in the office most of next week, feel free to call me at either of my numbers (ofc: 406-256-4040; cell: 406-202-5018).

Thanks,
Yueh

Yueh Chuang, P.E.

EXTERNAL EMAIL

Mike,

I was speaking with Yueh today and brought up the CFAC site and the erosional issue. He or another BN person will be contacting you. I just want to make sure we are having the discussion since that is a very active rail line. Better find out now there aren't issues, in case we have to do something that involves crossing the tracks.

Tom
